About ASTRO

ASTRO is a broadly scoped series of 10 Multiple Award (MA), Indefinite Delivery, Indefinite Quantity (IDIQ) contracts organized by functional pools and encompassing virtually all services supporting or involving manned, unmanned, or optionally manned platforms and robotics. ASTRO is administered by the General Services Administration (GSA), Assisted Acquisition Services (AAS), Innovation business unit. ASTRO provides federal agencies with a streamlined acquisition program for leveraged buying of platform-related services through AAS.

Booz Allen Holds All 10 ASTRO Contract Pools

ASTRO Features and Benefits

- Total solution for commercial or non-commercial requirements
- Flexible, broad scope with ASTRO pool selection based on majority of work
- Highly qualified, highest rated contractors with demonstrated federal experience
- Full life cycle GSA assisted acquisition with streamlined ordering
- Reduced procurement lead times and administrative costs
- No contract ceiling or task order size limits, no risk of interrupting services
- No additional Contract Access Fee (CAF)
- Subcontracting flexibility with teaming at the task order level to meet requirements
- Accepts all contract types with flexibility to choose type to mitigate risk
- Pricing at the task order level based on requirements, best value
- Standardized labor categories with flexibility to structure CLINs at order level
- 10-year Contract Period of Performance, +5 years for task orders issued before contract expiration, allows for long term planning & execution
- Global performance coverage for CONUS or OCONUS requirements

Our Capabilities

Booz Allen is proud to be a prime contractor on the ASTRO contract vehicles encompassing a broad scope of solutions. As a longtime partner and the largest provider of AI to the federal government, we work with our clients to make missions more effective and resilient. From accelerated readiness, cybersecurity, AI and data integration, to the **Digital Battlespace** our capabilities support all ASTRO program domains. For more information on capabilities and use cases, click on **markets** on our site including **Defense, Space, and Intelligence**.

Artificial Intelligence (AI)

We are the trusted AI leader to the nation; revolutionizing the country through AI solutions that power, protect, and propel us toward positive outcomes.

Innovation

Our end-to-end innovation ecosystem allows clients to architect intelligent and resilient solutions for future missions.

Cybersecurity

Through decades of experience and the most advanced tools available, we keep your mission secure and moving forward.

Digital Solutions

We're trusted to advance sensitive missions through digital transformation—with solutions that deliver the right capabilities with valuable insights.

Engineering

Pioneering next-gen tools and products with world-class engineering expertise centered in 27 labs and other facilities across the U.S. and globally.

Technology Accelerators

To keep pace with today's rapidly changing tech environment, we are constantly adding new accelerators to our suite of tools.

How To Place An Order On ASTRO

- ASTRO is available for use through GSA Assisted Acquisition Services (AAS) Contracting Officers with a Delegation of Procurement Authority
- GSA AAS provides acquisition, project, and financial management for the full acquisition life cycle from planning, soliciting, awarding, and administering the order to close-out

For additional AAS information visit aas.gsa.gov and aas.gsa.gov/astro
